

CELEBRATE AND PROMOTE RAINWATER COLLECTION

Mayne Island Integrated Water Systems Society

miiwss.com

Our new 'GARDEN POWERED BY RAINWATER' signs
are now available.

These 12"x12" outdoor signs are aluminum both sides, cored with rigid PVC Alupanel.

\$20.00 includes a MIIWSS membership . We are offering the signs at our cost, promoting the importance that rainwater collection is to our island way of caring and respecting our finite aquifers.

Rainwater collectors can now enjoy the freedom to meet their outdoor water needs. No guilt! Your new sign tells your story.

Water Systems benefit in the reduction of complaint calls about power and car/boat washing and garden watering. They will know who has rainwater collection tanks installed in the less than visible locations. No more expensive staff call outs.

Order by e-mail: nanda3@shaw.ca , or put your information and cheque in the community mail box at Gulfport Realty. Please include your name, address, phone, and e-mail for the membership info. Pick up or delivery arranged.

***Be the first in your neighbour to proudly promote
Water Conservation!***
