

MAYNE ISLAND INTEGRATED WATER SYSTEMS SOCIETY

AGM

Saturday, June 4, 1:30 p.m., Ag Hall

**Guest Speakers: Dr Harry Hartmann & Dr. Wendy Riggs
MB Labs, Sidney**

Are we held hostage by droughts? Rising seawater intruding on shoreline aquifers? Is there something we can do?

Lets work on a plan!

These concerns affect every property and water user on our islands. Since we are islanders through and through, we have the knowledge and concern to move towards a workable solution.

Also

Water quality concerns? Bring your spring well test results. Pick up your test bottles. Water system reports. Election. Chair's report.

What are the upcoming plans for MIIWSS?

Have your input to your Society!

Refreshments, consulting, socializing!

Buy your membership at the door, \$5.00.

Membership Form Date: _____

Name: _____

Address: (Mayne) _____

Address: (Off Island) _____
